

PULSA-S FILLER CAPPER

PRESSURIZED TANK

- › Smaller tank
- › Consistent product flow rate even with viscosity variations
- › Reduced amount of wasted product
- › More economical cleaning
- › No product contamination with closed tank system

FILLING

- › No drips
- › Weight-filling system
- › Legal Metrology available
- › Very high accuracy
- › Weighing accuracy not affected by temperature variations
- › Product savings due to no overfilling

HMI

- › Traceability
- › User-friendly interface
- › Programmable recipes
- › Maintenance indicators

+ BENEFITS

- › Flexible equipment
- › Multi-format machine (drums, jerrycans, bottles, pails)
- › Small footprint
- › Several layout configurations

NITROGEN PURGING

- › Option available :
 - Product protection after filling
 - Prevent container collapse

CLEANING SYSTEM

- › Customized cleaning programs
- › Reduced volume of wasted product and cleaning solutions
- › «Clean & Play»® system is an option

BRUSHLESS CAPPING SYSTEM

- › Consistently accurate torque values
- › Uninterrupted production
- › Fast changeovers
- › Traceability
- › Checking for cap presence and correction positioning

TOOLING SYSTEM

- › «Click & Play»® system
- › Dedicated color tooling for specific containers
- › Tooling switch requires no tools
- › Quick tooling changeovers

Explosion proof design

OUTPUTS

- › Up to 18 CPM

CONTAINERS

- › from 500ml to 20L

CAPS

- › screw cap, flexspout, push on cap, lid, bung, tab-seal
