

PULSA-S FILLER CAPPER

PAINT

PRESSURIZED TANK

- > Smaller tank
- > Consistent product flow rate even with viscosity variations
- > Reduced amount of wasted product
- > More economical cleaning
- > Possibility to pressurize the tank with Nitrogen

CLEANING SYSTEM

- > Customized cleaning programs
- > Reduced volume of wasted product and cleaning solutions
- > «Clean & Play»® system is an option

FILLING

- > No drips
- > Weight-filling system
- > Legal Metrology available
- > Very high accuracy
- > Weighing accuracy not affected by temperature variations
- > Product savings due to no overfilling

NITROGEN PURGING

- > Option available :
 - Product protection after filling
 - Prevent container collapse

BRUSHLESS CAPPING SYSTEM

- > Consistently accurate torque values
- > Allows for uninterrupted production
- > Fast changeovers
- > Traceability
- > Checking for cap presence and correction positioning

LID PLACING / PRESSING

- > Pail lidding and closing inside the controlled atmosphere
- > No leak

+ BENEFITS

- > Flexible equipment
- > Multi-format machine (drums, jerrycans, bottles, pails)
- > Small footprint
- > Several layout configurations

Explosion proof design

OUTPUTS

- > Up to 18 cpm

CONTAINERS

- > from 500ml to 20L

CAPS

- > screw cap, flexspout, push on cap, lid, bung, tab-seal
